Kirtika Sharma

Full-Stack Developer | React.js, Node.js, PHP | Azure & GCP
+1 672-355-0809 | ksharmawork12@gmail.com | **LinkedIn** | **GitHub** | **Portfolio**

PROFILE

Full-Stack Developer with experience **building scalable, cloud-native web applications** using **React.js, Node.js, and SQL**. Skilled in designing RESTful APIs, microservices architecture, and distributed systems with a focus on scalability, high availability, low latency, and performance optimization. Hands-on experience with Azure and GCP, containerization (Docker, Kubernetes), and CI/CD pipelines. Strong in debugging production issues and delivering high-quality, maintainable solutions.

TECHNICAL SKILLS

Programming Languages:	JavaScript, PHP, Java, C#, SQL
Frontend:	React.js, HTML5, CSS3, Bootstrap
Backend:	Node.js, Laravel, RESTful APIs, Microservices
Databases:	MySQL, MongoDB
Cloud & DevOps:	Azure, Google Cloud (GCP), Docker, Kubernetes, CI/CD
Practices:	Agile, Debugging, Performance Optimization, System Design
Tools & Platform:	Git, Github, Postman, WordPress, SEMrush

EXPERIENCE

Sula Indian Restaurant Oct 2025 – Present
Web Developer *Vancouver, Canada*

- Managed and **optimized** a production website**, improving page load speed by 30%** and enhancing overall user experience for 1000+ monthly users.
- Enhanced **page load speed and site performance** through caching strategies, plugin optimization, and media compression techniques.
- Implemented **SEO improvements using SEMrush**, increasing search visibility and driving higher organic traffic.
- Maintained website stability through **regular plugin updates, testing, monitoring, and security checks**.
- Diagnosed and resolved technical issues while implementing enhancements to **improve user experience and site functionality**.

Accenture Sep 2022 – Dec 2023
Application Developer *Gurgaon, India*

- Designed and developed **scalable backend microservices** using **Node.js and RESTful APIs**, supporting enterprise workflows.
- Implemented **API integrations and optimized database queries**, **improving response time by 20%.**
- Diagnosed and **resolved production issues**, **enhancing application stability and reducing downtime**.

- Built **scalable and high-availability backend** systems **handling large-scale data processing**.
- Collaborated with cross-functional teams in **Agile environment to deliver high-quality features**
- **Assisted in CI/CD pipeline** implementation for automated deployment and release management.

Global Logic April 2022 – Sep 2022

Junior *Software Developer* *Gurgaon, India*

- Contributed to development of **scalable web applications and backend services** within a production codebase.
- Developed **automation scripts and data validation logic** to improve data processing accuracy and system reliability.
- Identified and resolved **application issues and performance bottlenecks**, enhancing overall system performance by **reducing processing time by 15%.**
- Collaborated with cross-functional **engineering teams** to maintain backend services and ensure stable application performance.

ChildDeck May 2021 – Nov 2021

Full Stack *Developer Intern* *Gurgaon, India*

- Developed **responsive user interface components** using **React.js, JavaScript, HTML5, and CSS3** to enhance application usability.
- Integrated **RESTful APIs** to fetch and display dynamic data within the application.
- Implemented **backend logic and data processing** to support application features and functionality.
- Worked in Agile environment to support feature development, testing, and debugging.

PROJECTS

Scalable E-commerce Web Application

- Built a full-stack application using React.js, Node.js, and MongoDB supporting real-time product and order management.
- Designed RESTful APIs and backend services for handling user authentication and transactions.
- Deployed application on Azure with Docker-based containerization.
- Improved performance and scalability using optimized database queries and caching techniques.

EDUCATION

Douglas College, Canada

Post-Baccalaureate Diploma-(Computer & Information Systems) *Jan 2024 - Jan 2026*

Guru Gobind Singh Indraprastha University, India

Bachelor of Computer Applications (BCA) *Aug 2019 - April 2022*

CERTIFICATIONS:

Azure Fundamentals (AZ-900)

Azure Administrator Associate (AZ-104)

• Hands-on experience implementing Azure cloud services and deployment solutions
